

I am writing this because I am worried about a LPFM broadcaster displacing my local KLOVE station. I listen to my local KLOVE station everyday when I'm in the car. It is the best station I've found. I have a toddler that listens with me and I don't need to worry about her hearing anything that might harm her. It is safe for the whole family. This station lifts up and encourages people of all ages and types. It would be a shame to see this station get displaced by another station. KLOVE is not only a place to hear great songs. KLOVE offers so much more to anyone listening. You can call in and talk to a pastor at any time for whatever your needs might be. There are so many people who's lives have been changed because of KLOVE. I hope it never disappears from my local community.
